Non-Sequitur by Khadijah Queen

2014-15 Winner of the
LESLIE SCALAPINO AWARD
FOR INNOVATIVE WOMEN PERFORMANCE WRITERS

NON-SEQUITUR concerns a large group of abstract/conceptual characters and objects carrying on apparently unrelated conversations and making various observations about the larger world. Their movements and commentary represent an intuited understanding of reality- one that often doesn't not reveal itself in public, out loud, or even to the conscious self-mimicking the chaos of everyday existence.
